PROPOSED FOR COINAGE.

393 1879 The "*Stella*" or *Four* Dollar *Gold* piece. Obv., Head of Liberty, surrounded by the hieroglyphs ★6★G★3★S★7★C★7★G★R★A★M★S★ Beneath the bust, 1879. ℞ Shows a 5-pointed star, with the inscription on it, incused, "One Stella–400 Cents." Around the star, "United States of America, E Pluribus Unum.—Deo Est Gloria—Four Dol." Brilliant gold proof.

394 1879 The "*Goloid* Metric Dollar." Obv., Head of Liberty. Above "E Pluribus Unum" 7 stars to the left, 6 to the right. Below, 1879. ℞ In a circle of 38 stars, "15, 3—G. 236. 7—S. 28—C. 14 Grams." Around it, "United States of America—Goloid Metric Dollar—Deo Est Gloria—100 Cents." Brilliant Goloid proof.

395 1879 The *Silver* Metric Dollar. Obv., Head of Liberty; (Barber's design for the Standard Dollar in 1878, which was rejected, but generally conceded to be superior to the accepted pattern.) ℞ "895 . 8 S. 4 . 2—G. 100—C. 25 Grams," surrounded by a circle and wreath of corn, &c. Above, "Deo Est Gloria." Around, "United States of America, One Dollar." Brilliant silver proof.

☞ This is one of the *original* 15 *sets*, submitted to Congress. As to the value, I need only say that a gentleman at Washington refused, some time ago, $100 for one of these original sets. The pieces will be sold separately, without reserve, to the highest bidder; but should there be a fair bid for the lot, when the first piece is put up, the right is reserved to sell the three pieces *as a set*. The pieces are the more desirable, as there is not the least doubt that they will *not* be accepted for our coinage.

The adoption of the Gold piece instead of improving our coinage would be a decidedly retrograde movement. Not merely that, for the old design of the United States coinage some 75 years ago, was more beautiful, and more practical for the purposes of circulation. The "Goloid Dollar" being the size of a *Half*-Dollar, would open the door to wholesale counterfeiting, and deceiving the unwary, as its general appearance does not indicate the little gold in it. And as to the Metric Dollar, the 4.2 parts gold in it, may just as well be left out. But the most important objection is, that the acceptance of "goloid" would force the U. S. Government to pay a royalty to Mr. Hubbell, the "original inventor" as he styles himself, of this metal for coinage.

All we want is a Silver Dollar, worth 100 cents, instead of 90 cents, as at present; with a chaste head of Liberty on obverse, and a genuine looking eagle on reverse, instead of the present frightened-looking bird, with clipped wings and pulled feathers. As to the Legend, why not

start a historical coinage? On the obverse the words, "United States of America," and the date; on the reverse, the year of Independence, and the *name* of the President. Below, "One Dollar"? For instance: "103d year of American Independence—Presidency of Rutherford B. Hayes."!
